

ARE YOU USING YELLOW "CRIME" TAPE OR STICKERS TO MARK YOUR SEATING FOR SOCIAL DISTANCING?

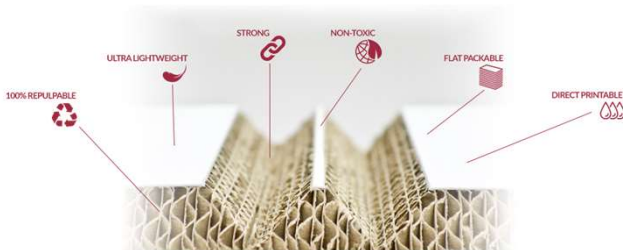

INTRODUCING THE SEAT BUDDY™

The Seat Buddy is a professional way to keep your customers or students Physically and Socially Distanced.

The Seat Buddy comes in two pieces and can be installed in any indoor seating area in seconds.

These cutouts can be made using our standard die-line or they can be designed with a custom shape. They are printed in 4/C process, using UV inks, on both sides. We can print using your photos, or personalized with your logo and corporate colors, it's all up to you.

Using Xanita Board, the Seat Buddy is moisture resistant, strong, and recyclable.

Xanita Board is a lightweight, UV inkjet printable board that is strong with a high crush strength core, non-toxic (no VOCs), direct printable, flat pack, and is 100% repulpable/recyclable. It is not cardboard or timber - but is made from post-consumer recycled cellulose fibers such as Kraft cardboard boxes.

Pricing: (each)
15: \$30.00
30: \$20.00
45: \$19.00
